**RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS**

S I R:

In response to the Notification of Missing Requirements mailed May 12, 2006, applicants respectfully point out that the application was filed with two translations, namely, an English translation of the original international application and an English translation of the international application with amended pages incorporated therein.

Copies of the two translations are attached. It will be noted that the translation with the amended pages incorporated therein was placed on top of the translation of the original international application and, therefore, the original version of the application was possibly overlooked when the application was received in the U.S. Patent and Trademark Office.

Since the paper referred to in the Notification of Missing Requirements has actually been furnished, it is submitted that no processing fee is due.

However, any additional fees or charges required at this time in connection with the application may be charged to Patent and Trademark Office Deposit Account No. 11-1835.

Respectfully submitted,

Friedrich Kueffner
